Year 7 and beyond

High School students will be in classes from Bronze Medal through to our senior classes. Students will have either progressed through the levels at DancEdge or have come from a previous dance school with experience.

Our goal is to place students in a class where they are going to feel challenged but not overwhelmed. It is important to remember that just because a child is of a certain age, it does not automatically qualify them for a certain level. We all grow and develop at our own pace and this may not be at the same pace as our friends. Your child's dance journey is an individual one which we strive to nurture.

Please note, final decision on class placement is at the Director's discretion.
